Next Element Partners with Bethel College to Build Adventure Course

© 2009, Next Element Consulting, LLC

What do you get when you mix a scenic wooded trail, a premier liberal arts college, and a soft-skills training and development firm? We think it's the perfect combination.

Next Element is excited to announce our partnership with [Bethel College](#), North Newton, KS to construct an [adventure course](#) that will span parts of campus as well as the scenic Sand Creek Trail.

In addition to offering a beautiful adventure course for our clients, we are equally excited about the potential for collaborative programming and outcomes research.

Stay tuned for updates. If you'd like to book your team for an adventure course experience in Spring 2010, give us a call.
