What people are saying about PCM Core Competency Training

© 2009, Next Element Consulting, LLC

"This is probably the best communication training I've ever seen. If you think there are better models, this training will change your perception. Make plans to attend today. You'll feel better about yourself, your organization, and you'll have a blast!"

- David Mace, Owner, Maverick Creative Group, Wichita, KS

"This seminar is great for improving communication effectiveness. I leave with concrete techniques for dealing with problem behaviors, and an understanding of what makes people different from me tick. Valuable stuff!"

- Abe Regier, Flint Hills Design, Newton, KS

"The PCM seminar has been a valuable addition to my understanding of human behaviors. It fits perfectly with our philosophy at Sandler, 'the more you know about yourself, the less you have to sell'."

- Mark Benefiel, President, Sandler Training, Wichita, KS

"There is an attention to the details of communicating that I have not experienced in other communication seminars/classes/books. Understanding the psychological needs of those who come to you with their stuff was new to me and such a help in understanding..."

- Faye Wagner, Valley & Lincolnville, KS United Methodist Church

"Outstanding, life changing training event. This training could change your ministry. The best training event I have ever attended and very applicable to present ministry settings."

- Jorge Arvelo, St. Johns, KS United Methodist Church

"I think, feel and believe that this training has prepared me to remain psychologically healthy and better able to relate to people in my church, home and community."

- Donna Wise ? Mount Hope, KS United Methodist Church

"I had no idea going into this training what it would be about. But I am grateful for the opportunity to be here. I truly believe PCM will help me to be a better husband, father and Pastor. I truly believe that!"

- James B. Taylor ? Borden, KS United Methodist Church
